

HEALTH & SAFETY POLICY

The health and safety of all agency personnel that we place with our employer partners is of prime importance to FOMAC Construction Ltd. Therefore we fully support and adhere to the MCG initiative on improving Health and Safety on construction sites. For more information on this initiative please visit www.ukcg.org.uk/home/

Tangible ways that we demonstrate this are detailed below:

- FOMAC Construction Ltd. supports CITB initiatives. What does this mean? Visit www.CITB.co.uk
- FOMAC Construction Ltd. provide all agency personnel with our guide to 'Health and Safety on site'.
- FOMAC Construction Ltd. obtain a CSCS registration number for all workers (whom have worked for us over one month). What is a CSCS registration number? Visit www.CSCS.uk.com
- Once agency personnel have obtained their CSCS registration number FOMAC Construction Ltd issue them with a CSCS application pack.
- FOMAC Construction Ltd. then assist our agency personnel through the registration process up to receipt of CSCS certificates.
- All of FOMAC Construction Ltd.'s consultants have passed the GITB Health and Safety test.

The health and safety of our people is of the utmost importance and we are committed to ensuring that the highest standards of health and safety are provided.

We issue our workers with a 'Worker's Guide to Health and Safety on Site' booklet which contains information on safety and health matters and how they affect you. It describes what to do if an accident occurs and more importantly how steps can be taken to both avoid an accident and avoid suffering from work related ill-health.

FOMAC Construction Ltd. are aligned with the Major Contractors Group which aim to improve site safety through the Introduction of CSCS cards to tradespeople and operatives.

Copies of our full health and safety documents are available upon request
